If your plan covers outpatient prescription drugs, your plan may include a drug formulary (preferred drug list). A formulary is a list of prescription drugs generally covered under your prescription drug benefits plan on a preferred basis subject to applicable limitations and conditions. Your pharmacy benefit is generally not limited to the drugs listed on the formulary. The medications listed on the formulary are subject to change in accordance with applicable state law. For information regarding how medications are reviewed and selected for the formulary, formulary information, and information about other pharmacy programs such as precertification and step-therapy, please refer to Aetna's website at Aetna.com, or the Aetna Medication Formulary Guide. Many drugs, including many of those listed on the formulary, are subject to rebate arrangements between Aetna and the manufacturer of the drugs.

Rebates received by Aetna from drug manufacturers are not reflected in the cost paid by a member for a prescription drug. In addition, in circumstances where your prescription plan utilizes copayments or coinsurance calculated on a percentage basis or a deductible, use of formulary drugs may not necessarily result in lower costs for the member. Members should consult with their treating physicians regarding questions about specific medications. Refer to your plan documents or contact Member Services for information regarding the terms and limitations of coverage.

Aetna Rx Home Delivery refers to Aetna Rx Home Delivery, LLC, a subsidiary of Aetna, Inc., that is a licensed pharmacy providing mail-order pharmacy services. Aetna's negotiated charge with Aetna Rx Home Delivery may be higher than Aetna Rx Home Delivery's cost of purchasing drugs and providing mail-order pharmacy services.

Plans are offered by: Aetna Health of California, Inc.
